378 BOREL/BYBEE FROM GRAYBILL/SWANSON LD 408

REF L291450 (AUGUST) CRUISING ITEM ON MINISTRY OF MERCHANT
MARINE DAILY BULLETIN IN RADIOTELETYPE. UP TO NOW BUREAU HAS
BEEN USING SOURCELINE LONG USED FOR THE RUSSIAN MORSE MARITIME
TRANSMISSION, WHICH IS STILL CARRIED THREE TIMES A WEEK, AS
FOLLOWS: MOSCOW MARITIME PRESS SERVICE IN RUSSIAN.

INDICATIONS ARE THAT THE RADIOTELETYPE TRANSMISSION, OR
AT LEAST PART OF IT, IS FOR POLAR STATIONS THOUGH CERTAIN
SHIPS PROBABLY INTERCEPT IT AS WELL. CAN FOS SUGGEST A SOURCELINE
FOR THE RADIOTELETYPE TRANSMISSION ~~FOR~~ SHOULD WE CONTINUE TO
USE THE SAME SOURCELINE FOR BOTH THE RTTY AND MORSE CASTS?
